MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Department of Defense Program for Stability of Civilian Employment

1. The Department of Defense Program for Stability of Civilian Employment, commonly known as the Priority Placement Program, was established to minimize the adverse effects on Department of Defense employees who are involved in reductions-in-force, realignments, base closures, or who are returning from overseas assignments. The program also assists military spouses and civilian family members by placing them in positions if they meet certain eligibility requirements.
2. The program has been instrumental in placing thousands of Department of Defense employees who were faced with separation or demotion through no fault of their own. Valuable employees who are well-trained and experienced have been retained for continued public service through the efforts of managers and supervisors like yourselves.
3. The continued success of this program depends on the concerted efforts of all managers and supervisors. I fully support the objectives of the program and ask each of you to join me in complying with all its requirements.
4. The point of contact is G1/DCSPER, Civilian Personnel Division, DSN (315) 438-7414.

  
JAMES L. CAMPBELL  
Lieutenant General, USA  
Commanding
